

## **Ecologist (Office based position)**

Hansen Bailey is a boutique environmental consulting firm servicing the mining and related sectors with a reputation for high quality work and client service. Our company focuses on attracting and developing high calibre professionals and puts a strong emphasis on maintaining a healthy work-life balance. We are a close knit team of professionals with offices in both inner-city Brisbane and Singleton, in the Hunter Valley NSW.

We have a current opportunity for an Ecologist to join our Brisbane office. We are currently working on environmental assessments for major resource projects in Queensland, the Northern Territory and New South Wales. These assessments include both office based ecological studies and studies undertaken by ecological sub-consultants. We are looking for an Ecologist to assist with the office based studies and the project management of studies involving specialist sub-consultants.

The role is an office based position and does not involve ecology field survey work. It requires a professional with qualifications in ecology and a minimum of 3 years experience in ecological impact assessment and ecological management. Experience in the following areas will be highly regarded:

- Knowledge of Queensland and Australian environmental legislation applicable to ecology;
- Ability to project manage large and complex ecological assessments including field surveys conducted by external sub-consultants
- Ecological report writing skills
- Experience with ecological impact mitigation and management and biodiversity offsets
- Previous field survey, impact assessment and consulting experience

You should have the capability to work autonomously and liaise with clients, regulators, staff and sub-consultants. You will require excellent leadership, project management, communication, report writing, and teamwork skills.

If you can picture yourself contributing to a strong team, then this is a truly outstanding career opportunity. Please forward your written application highlighting your relevant experience to [admin@hansenbailey.com.au](mailto:admin@hansenbailey.com.au).
